Remarks:			
<p>Capt Faubion USN offered the attached for discussion as an alternative (simplified) to part of our matrix. In meeting him here today we didn't discuss this in detail. It is very tentative with him and he clearly is searching for an "easier" way to do TOD.</p> <p>I said this wasn't really much different from our proposal and I suspected it would be necessary to gather data as we proposed to answer this. I said our proposal was open to discussion and suggested further DCI/DIA meetings this week.</p> <p>This meeting suggests DIA is far from having formulated a clear position as to what to do with</p>
